

### 'New Moon'

We are pleased to announce our new yacht '*New Moon*'. She is a Contessa 38 whose pedigree speaks for itself, used exclusively by the Armed forces for sail training and expeditions Contessa yachts are well found, sea worthy, easy to handle ideal for learning but also capable of looking after you should you choose to explore our planet.

She has plenty of space with all the mod cons you would expect from fridge and freezer to cabin heating, state of the art electronics and navigation equipment to its own generator. As you can tell we are very excited about her. *New Moon* will be commissioned and available the third week in February, we can't wait to put her through her paces.
